Responsible Conduct of Omics Research

REQUEST FOR APPLICATIONS

**Brief Description:** Responsible Conduct of Omics Research (RCR Omics) is an online course designed to give participants an overview of the principles and challenges in the responsible conduct of research, specifically to the ‘omics field. This course will be a condensed version of the face-to-face MGH Responsible Conduct of Omics Research course, offered annually by the MGH Division of Clinical Research. The online version will cover foundational RCR topics across ‘omics fields (e.g. genomics, epigenomics, transcriptomics, proteomics, metabolomics, data analysis). Additionally, this course will fulfill NSF and NIH Career Development Award criteria.

**Who is the target audience:** Fellows, junior faculty, and investigators with NSF and NIH Career Development Awards seeking RCR credit.

**Date applications are due for applicants:** Monday, May 28, 2018

**Date by which applicants will be notified:** Friday, June 8, 2018

**Selection process and criteria:** Applicants must have either a doctorate or master-level degree. This course is targeted towards investigators who have received NSF and NIH Career Development Awards and are seeking RCR credit.

Additionally, applicants must be members of a Harvard or Harvard-affiliated institution or within the CTSA consortium. Qualified applicants will be accepted on a first-come, first-served basis.

Harvard Catalyst’s Education Program offers first priority to applicants who are current Harvard students, faculty, or current employees of Harvard University, its ten schools, and its seventeen Academic Healthcare Centers (AHC), or that of Boston College School of Nursing, MIT, or Harvard Pilgrim Health Care. A complete list of participating institutions can be found on the Harvard Catalyst website: [http://catalyst.harvard.edu/about/](http://catalyst.harvard.edu/about/). The next level of priority is given to members of the national Clinical Translational Science Award (CTSA) consortium. A complete list of participating institutions (CTSCs) can be found on the CTSA website: [https://www.ctsacentral.org/institutions](https://www.ctsacentral.org/institutions) Applicants who are external to the groups listed above are accepted for a cost recovery fee, when space is available.

By accepting enrollment in one of the Education Program courses, the participant is agreeing to participate in the entirety of the course. Since the Education Program courses are expensive to produce, but are offered to Harvard and CTSC affiliates free-of-charge, including Continuing Medical Education (CME) credits, the only obligation of participants is to fully participate and meet the basic requirements of completion for the course.
Please note that participants seeking CME credits must fulfill all requirements set forth in the course syllabus and complete all course surveys and evaluations to receive CME credits. No partial CME credits are offered.

If you have any questions about the course or information above, please don’t hesitate to ask. The course coordinators can be reached at omics@catalyst.harvard.edu.
