LEARN WITH US:

Live Q&A's

Panel Discussions

Recorded Talks

Live Webinars

Workshops

WEEK 1  
May 7

## Fundamental Concepts in Biomarker Science

- Biomarkers in Translational Medicine & Therapeutics
- Participants & Patients: Diversifying Biomarker Science
- Imaging and Biomarkers
- FDA and Biomarkers

WEEK 2  
May 10 & 14

## “How-To” Advance Biomarker Research

- Trial Design Basics: COVID
- How to Quantify Imaging Biomarkers
- How to Avoid Irreproducibility of Biomarkers
- How to Evaluate Biomarkers

WEEK 3  
May 21

## Biomarker Discovery

- Genomics
- Proteomics
- Metabolomics
- Radiomics

WEEK 4  
May 24

## Types of Biomarkers

- Microbiome Biomarkers
- Mass Spectrometry Imaging
- Safety Biomarkers

WEEK 5  
June 4

## Biomarkers in Health and Disease

- Biomarkers in Immune Oncology
- Neuro Biomarkers
- Using Biomarkers to Understand Complex Diseases

WEEK 6  
June 11

## Biomarker Technologies

- Biomarkers in Liver Disease
- Digital Biomarkers
- CRISPR and Health & Disease
- Nanoscale Technologies

WEEK 7  
June 14

## Career Development

- Professional Perspectives:
- Academic
  - Academic transitioned to Industry
  - Policy Advisor (industry + ethics + government)
  - Venture Capitalist
